We guarantee that all shots and de-worming are current at time of purchase as stated on the Veterinarian's Certificate of Health included in the purchaser's puppy packet.

Health Guarantee

Your puppy is guaranteed for 1 year from the date of birth against life threatening congenital defects. If within that time a life threatening congenital defect (not to include parvo virus, distemper virus, heartworms or any nutrition related disease) is attested to by **two** non-associated licensed veterinarians and the reason is congenital, the breeder will replace the puppy with another puppy of same breed, quality and price if our veterinarian agrees with the required written reports from the **two** non-associated licensed veterinarians. The breeder must be notified at the onset of the problem, in writing, with a report from the two veterinarians. The replacement puppy will be subject to availability (within 12 months). We do not make cash refunds. We, the breeder, are not responsible for any veterinarian bills acquired by the purchaser. We will not be responsible for illness or any health problems, which are diagnosed after this time period.

In the unlikely event of the death of this puppy in the first year from date of birth, due to congenital defect, a statement from a licensed veterinarian confirming such an event and cause is required before any action will be taken by the breeder. If cause is unknown an autopsy is required. The breeder will not be responsible for veterinary or medical bills associated with such an event.

Your puppy has been on a vaccination and de-worming schedule while in our care and is up to date and official records of these have been provided in the purchaser's puppy packet. We encourage you to take this health record to your veterinarian, it is important to continue with the vaccination and de-worming schedule after taking ownership of your new puppy.

You, the purchaser, agree to insure your puppy's good health and to keep our guarantee in effect by taking good care of the puppy and providing good food, housing and good medical care. As a responsible puppy owner/purchaser you must provide your puppy with routine preventative care and all immunizations, administer monthly heartworm preventatives and annual physical examinations by a licensed veterinarian.
